Not a Bite of Breakfast Until You Drink Water

Says a glass of hot water and phosphate prevents illness and keeps you fit.

Just as coal, when it burns, leaves behind a certain amount of combustible material in the form of ashes, so the food and drink taken day after day leaves in the alimentary canal a certain amount of indigestible material, which if not completely eliminated from the system each day, becomes food for the millions of bacteria which infest the bowels. From this mass of left-over waste, toxins and ptomaine-like poisons are formed and sucked into the blood.

Men and women who can't get feeling right must begin to take inside baths. Before eating breakfast each morning drink a glass of real hot water with a teaspoonful of limestone phosphate in it to wash out of the thirty feet of bowels the previous day's accumulation of poisons and toxins and to keep the entire alimentary canal clean, pure and fresh.

Those who are subject to sick headache, colds, biliousness, constipation, others who wake up with bad taste, foul breath, backache, rheumatic stiffness, or have a sour, gassy stomach after meals, are urged to get a quarter pound of limestone phosphate from any druggist or storekeeper, and begin practicing internal sanitation. This will cost very little, but is sufficient to make anyone an enthusiast on the subject.

Remember inside bathing is more important than outside bathing, because the skin pores do not absorb impurities into the blood, causing poor health, while the bowel pores do. Just as soap and hot water cleanses, sweetens and freshens the skin, so hot water and limestone phosphate act on the stomach, liver, kidneys and bowels. Adv.

WHEN KIDNEYS ACT BAD TAKE GLASS OF SALTS

Eat Less Meat If Kidneys Hurt or You Have Backache or Bladder Misery—Meat Forms Uric Acid.

No man or woman who eats meat regularly can make a mistake by flushing the kidneys occasionally, says a well-known authority. Meat forms uric acid which clogs the kidney pores so they sluggishly filter or strain only part of the waste and poisons from the blood, then you get sick. Nearly all rheumatism, headaches, liver trouble, nervousness, constipation, dizziness, sleeplessness, bladder disorders come from sluggish kidneys.

The moment you feel a dull ache in the kidneys or your back hurts, or if the urine is cloudy, offensive, full of sediment, irregular of passage or attended by a sensation of scalding, get about four ounces of Jad Salts from any reliable pharmacy and take a tablespoonful in a glass of water before breakfast for a few days and your kidneys will then act fine. This famous salts is made from the acid of grapes and lemon juice, combined with lithia and has been used for generations to flush clogged kidneys and stimulate them to activity, also to neutralize the acids in urine so it no longer causes irritation, thus ending bladder disorders.

Jad Salts is inexpensive and cannot injure; makes a delightful effervescent lithia-water drink which all regular meat eaters should take now and then to keep the kidneys clean and the blood pure, thereby avoiding serious kidney complications. Adv.

IS CHILD CROSS, FEVERISH, SICK

Look, Mother! If tongue is coated, give "California Syrup of Figs."

Children love this "Fruit Laxative," and nothing else cleanses the tender stomach, liver and bowels so nicely.

A child simply will not stop playing to empty the bowels, and the result is they become tightly clogged with waste, liver gets sluggish, stomach sours, their little one becomes cross, half-sick, feverish, don't eat, sleep or act naturally, breath is bad, system full of cold, has sore throat, stomach-ache or diarrhoea. Listen, Mother! See if tongue is coated, then give a teaspoonful of "California Syrup of Figs," and in a few hours all the constipated waste, sour bile and undigested food passes out of the system, and you have a well child again.

Millions of mothers give "California Syrup of Figs" because it is perfectly harmless; children love it, and it never fails to act on the stomach, liver and bowels.

Ask at the store for a 50-cent bottle of "California Syrup of Figs," which has full directions for babies, children of all ages and for grown-ups plainly printed on the bottle. Adv.

NO FOR HARMONY

What Progressives Want of Republican Party.

Seek Only Nomination of Roosevelt—Willing to Allow the Platform to Be as Reactionary as Wall Street May Desire.

Chairman Hill of the Republican National committee gives assurances that the National convention "will be open-minded," and Franklin Murphy of New Jersey finds that "there is a great disposition to bring about harmony if the Progressives are not too nasty."

The Progressives consist of the colonel, who always runs for office, and of George W. Perkins, who always pays the freight. The others do not count. We are sure that the colonel and Brother Perkins will not be "too nasty." The colonel will be satisfied with the nomination for president, and Brother Perkins will be satisfied to have the Republicans collect the colonel's campaign fund, trusting to the colonel's fondness for "men of my type" for further reward.

In order to have harmony so far as the Progressives are concerned, all the Republicans need to do is to nominate the colonel. They may make the platform as reactionary as they please. They may sell out the party to the highest bidder in Wall Street. They may restore Hannebaum in its most sordid and sinister form. But if they nominate the colonel the Progressives will not be "nasty."

Real Basis of Prosperity.

A New York financial publication calculates that last year, whereas our foreign trade amounted to \$5,350,000,000, the domestic commerce of the United States was over \$500,000,000,000. That is, in the year of the greatest foreign commerce we have ever known, that commerce was only one per cent of the domestic business.

It is well for Americans to keep these considerations in mind. After all, this country is the chief market for this country's products and industry. The most important effect that can be made for promotion of industry and enterprise is to insure that our own products have the best chance in their home market, our own labor be employed at remunerative wages.

Foreign trade is highly important to us, but domestic traffic is immeasurably more so. The fact cannot be too earnestly impressed. That policy which will do most for home production, which will give assurance of steady, permanent employment to labor and capital, is after all the real basis on which permanent prosperity will be established.

Steel Trust Dividends.

The steel trust resumed paying dividends at the rate of 5 per cent on its common stock, after a long period of lower or wholly absent returns. It made this recovery under a low-tariff regime and during a Democratic administration. Yet steel trust magnates are working tooth and nail to displace that administration, and bring back to the White House the man whose wild mouthings precipitated the panic of 1907—when they were allowed to absorb the Tennessee Coal & Iron company in defiance of the Sherman law.

The moral seems to be that these magnates prize the privilege of breaking the law more highly than the chance to earn good dividends. Is this preference due entirely to sentiment, or does it have its basis in stock-market profits not shown on the balance sheet of the corporation?

Country's Prosperity.

Exports 40 per cent larger than the previous high record, and excess of exports much more than twice as large in spite of small reduction in imports, tell a remarkable story of quick trade expansion into outside markets. Net gold imports for the year of \$420,628,672 were three times greater than the highest record of any year before the war and leave an apparently unsettled export excess of about \$1,358,000,000, which largely represents the amount of foreign loans absorbed here during the year and American securities sold here by foreign holders.

Somewhat Inconsistent.

We as a country are facing a great world crisis in which for the last eighteen months this nation has fallen far short of its duty, both to its own people and to the law-abiding and justice-loving nations of mankind.—Colonel Roosevelt.

And this from the man who tore up the treaty with Colombia, made the United States government the partner of a paid lobbyist and "took" the Isthmus of Panama.

Party of Personalities.

For a party devoted to principles exclusively, the Progressives have an unfortunate way of getting their principles snarled up with personalities. "Don't get it into your mind," says Mr. Perkins, "that we are going to abandon the principles for which we fought in 1912. The national features of our 1912 platform are more necessary today than they were then." And they are summed up in a single phrase, "Get rid of Wilson." In 1912 the eternal principles of social justice amounted to "Get rid of Taft."

Conclusions That Conflict.

The chairman of the Republican National committee has reached the comforting conclusion that President Wilson is politically bankrupt, and the uncomfortable conclusion that it will be very difficult to defeat him.

Republican Handicap.

When the Republicans look over their presidential timber it must seem to them that conservation of presidential timber has been something of a failure.—Albany Argus.
